PROFESSIONAL EXPERIENCE

Aitrich Technologies Pvt Ltd
ASP.NET Core Full Stack Developer as Internship
DEC 2023 – PRESENT // Full-Time

Developed and contributed to the creation of a Job Portal Application during an internship at Aitrich Technologies.
- **Collaborated** in an Agile environment, participating in daily stand-ups, sprint planning, etc...
- **Worked across all phases** of the Software Development Life Cycle (SDLC), including requirement gathering, design, development, testing, and deployment.
- **Implemented backend functionality** using technologies like HTML, CSS, .NET Core, C#, and SQL for backend functionality.
- **Conducted code reviews** and collaborated on Git repositories to maintain code quality and streamline version control.

Frontend Developer as Freelance   Live | GitHub
Jun 2022 // Part-Time

- Developed a responsive website showcasing AI-driven drone solutions.
- Highlighted services such as technical inspections and precision agriculture.
- Ensured smooth user experience and fast performance across devices.

PROJECTS

Job Portal System – MVC Architecture   GitHub

- Created an MVC web application connected to MSSQL for managing job listings and applications.
- Involves role-based access and a database-driven backend.
- Ongoing development to complete full functionality.

Tools & Platforms
- Git
- GitHub
- GitLab
- Trello
- Azure
- Firebase
- Visual Studio
- VS Code
- Eclipse

Concepts
- MVC Architecture
- SDLC
- Agile Methodologies
- Database Design & Normalization
- Version Control (Git Workflow)

EDUCATIONAL BACKGROUND

ASP.NET Core Full-Stack Web Development.
Aitrich Technologies
DEC 2023 – PRESENT

Bachelor of Computer Applications (BCA)
Indira Gandhi National Open University
July 2023 – July 2026

Job Provider Pages – Angular   GitHub

- Developed a job provider portal using Angular with JSON server for login functionality.
- Designed pages to manage job postings and user roles.
- Currently in progress with plans to extend features.

Money Manager App – Flutter   GitHub

- Built with Android Studio, this app tracks expenses and income with category-wise filtering.
- Features an intuitive UI and real-time data visualization.

Calculator Mini Project – Python   GitHub

- A simple, modular Python calculator performing arithmetic operations.
- Code structured for readability and easy updates.
